

CWA Engineers is an industry leading consulting engineering firm which provides professional services to clients in Canada, the US, and Internationally.

Our multidisciplinary team specializes in a diverse range of industries including: Mining and Minerals, Ports and Marine Terminals; Construction Materials ; Materials Handling; Solid Wood, Pulp and Paper; Oil and Gas; Municipal Infrastructure and Utilities.

Due to our expanding client base and growing project needs. CWA is seeking qualified candidates to join our team in the following capacity:

SENIOR STRUCTURAL ENGINEER

The Ideal Candidate will possess the following qualifications:

- A Bachelors Degree in Structural Engineering and eligibility for Professional Registration with APEGBC.
- A minimum of 10 to 15 years of relevant design experience including conveying systems, bulk loading and unloading equipment, buildings and structural support systems for process equipment.
- Excellent communication and interpersonal skills.
- Demonstrated ability to interact with co-workers, clients and contractors.

This is an ideal opportunity for an engineering professional who is seeking to take his or her career to the next level by taking on new challenges within a fast pace and growth oriented environment.

If you have the required qualifications and an ambition to succeed, then we would like to meet you and further discuss the possibilities.
